SHIFTMATES

https://try.shiftmates.net

Smart tools for collaborative shift management

Shiftmates is a simple web app featuring a "Shift Board" where employees can cover coworkers' shifts. Automatic notifications make approval a breeze for managers. Say goodbye to the chaos of finals week, the pain of begging coworkers to cover a shift, and the confusion of who's supposed to come in, and say hello to Shiftmates!

Getting Started

1 **Sign up at https://try. shiftmates.net**

2 **Invite company employees by email**

3 **Review requests on the company dashboard**

4 **Approve or reject trades with a single click**
